▶ Safety Moment

BBQ Safety

- **Clean:** Ensure burner ports are free of rust, dirt, spider webs or other debris.
- **Check/Test:** Examine and test the hose leading from the tank to the burners for leaks.
- **Do:** Keep loose clothing away from a hot barbecue. Keep children and pets at a safe distance.
- **Don't:** Don't allow grease to build up on the burners or at the base of the barbecue, as this could cause a grease fire. Don't throw water on a grease fire – this will only spread the flame.

► Safety & Environment

- Continual improvement in our safety programs
- Environmental leadership

► Environmental Incidents

- Review of public disclosure protocol
- Compressor failure in the UF₆ plant
- Chemical spill into secondary containment in the UO₂ plant
